This is section 0, row 7

Batch #12 / iOS Class

Remote Learning Assignment - Week 4

- Please implement a closure which input type is Int, output type is Bool. The functionality of this closure is to verify if the input is odd or not, If it's odd, please return true, otherwise return false.
- Please complete this assignment in a **new** app.

URL : <https://stations-98a59.firebaseio.com/practice.json>

Method: GET

Authorization: None

Response:

```
{  
  "stationID": "R3",  
  "stationName": "Siaogang",  
  "stationAddress": "高雄市小港區沿海一路280號地下一樓"  
}
```

- Only consider **iPhone 8** screen size when implementing this app.
- Here're the UI requirements and the distance mentioned below are using pixel as unit
- You should also complete this assignment with an **asynchronous** task.

Batch #12 / iOS ClassRemote Learning Assignment - Week 4
